MANAGEMENT REPORT

Investments in 2024

Global stock markets rose 25% (EUR) in 2024 partly helped by the strengthening of the dollar by appx. 7% against EUR. The stock markets were led by the few, where capital flowed to the large cap technology stocks. This led to an unprecedented market concentration, where the 7 largest stocks in the United States reached a total market value of 17,000 billion (USD) corresponding to 16% of the world economy. Their weight in the S&P500 index reached almost 30%.

This concentration of returns is clearly visible comparing the return of the S&P500 index with the equal weighted S&P500 index. Here, all 500 stocks have the same weight. The equal weighted index rose 12%-points less than the S&P500.

Performance of our funds were generally mixed in 2024. Our global funds had exposure to 3 of the magnificent 7 companies, but it wasn't enough given the unprecedented concentration, and this contributed to underperformance compared to their benchmarks. Our Asian, Nordic, Sweden, Sweden Small Cap funds were able to outperform their respective benchmarks, and our India fund and Healthcare Select managed to perform in line with their benchmarks.

**Shape the future
with confidence**

Independent auditor's report

To the Unitholders of
C Worldwide
1, rue Schiller
L-2519 Luxembourg
Grand Duchy of Luxembourg

Opinion

We have audited the financial statements of C WorldWide (the "Fund") and of each of its Sub-Funds, which comprise the statement of net assets and the securities portfolio as at 31 December 2024, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its Sub-Funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

**Shape the future
with confidence**

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company of the Fund for the financial statements

The Board of Directors of the Management Company of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company of the Fund.
- Conclude on the appropriateness of Board of Directors of the Management Company of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

1 GENERAL

C WORLDWIDE (hereafter the "Fund") is an unincorporated collective investment fund ("fonds commun de placement") constituted in Luxembourg on 6 December 1995 governed by Luxembourg law and investing in transferable securities and other permitted assets. The Fund is an Undertaking for Collective Investment in Transferable Securities (a "UCITS") registered under Part I of the 17th December 2010 law, as amended on collective investment undertakings.

The Fund is an unincorporated co-proprietorship of its securities and other assets, managed by C WorldWide Fund Management S.A. ("the Management Company"). The Management Company was incorporated on 5 December 1995 in Luxembourg as a "société anonyme". The assets of the Fund are segregated from those of the Management Company.

The Fund has currently the following active Sub-Funds and Unit Classes:

C WorldWide Emerging Markets - Class 1A
C WorldWide Emerging Markets - Class 1C

Class 15 is only available to the Swedish Premium Pension system approved by C Worldwide Asset Management A/S.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment in transferable securities.

2.1 Valuation of investments

- (a) The value of any cash at hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interests declared or due but not yet collected will be deemed to be the full value thereof, unless it is unlikely that such values are received in full, in which case the value thereof will be determined by deducting such amount the Directors of the Management Company consider appropriate to reflect the true value thereof.
- (b) Securities listed on a stock exchange or traded on any other regulated market will be valued at the last available price on such stock exchange or market. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market, which constitutes the main market for such securities, will be determining.
- (c) Securities for which no price quotation is available or for which the price referred to in (b) is not representative of the fair market value, will be valued prudently, and in good faith on the basis of their reasonable foreseeable sales prices.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.1 Valuation of investments (continued)

- (d) Investments in investment funds of an open ended type are taken at their latest net asset values reported by the administrator of the relevant investment fund.

A statement of changes in the composition of the portfolio is available to Unitholders free of charge on request from the Management Company's registered office.

2.2 Realised gains and losses on investments

Realised gains and losses on sales of investments have been determined on the average cost basis and include transaction costs.

2.3 Foreign currency translation

The combined financial statements of the Fund are maintained in USD. The combined financial statements are the sum of the Sub-Funds' financial statements equivalent in USD translated, where applicable, at the rate of exchange ruling at 31 December 2024.

The market value of the investments and other assets and liabilities expressed in currencies other than the base currency of each Sub-Fund have been converted at the rates of exchange ruling at 31 December 2024. The cost of investments in currencies other than the base currency of each Sub-Fund is converted at the rates of exchange prevailing at each Net Asset Value calculation date. The realised and unrealised gains and losses on foreign exchange operations are recognized in the Statement of Operations and Changes in Net Assets.

Income and expenses expressed in currencies other than the reference currency are converted at exchange rates ruling at the transaction date.

2.4 Dividend and interest income

Dividends are shown net of withholding tax deducted at source and are recorded as income on the ex-dividend date.

2.5 Dilution

To protect existing unit holders from the dilution of value caused by large transactions in and out of a Sub-Fund, as the case may be, the Management Company may determine to apply "Swing Pricing", i.e. adjust the Net Asset Value (to include such reasonable factors as they see fit). As a matter of fact, transactions in and out of a sub-fund may result in dilution of value caused by the cost associated with the dealing such as brokerage fees, transaction charges, taxes, spread effects and market impact.

If on any Valuation Day the net capital inflows or outflows exceed a certain threshold, set by the Board from time to time, for each Sub-Fund the Net Asset Value will be adjusted upwards or downwards to reflect the cost that may be incurred by buying or selling investments to satisfy the daily transactions at Sub-Fund level. This method is known as the "Partial Swing Method". The threshold takes into account such factors as the estimated dilution costs, the size of the sub-fund and the prevailing market conditions. The application of Swing Pricing will be triggered mechanically and on a consistent basis.

The adjustment will be upwards when the net aggregated transactions result in an increase in the number of units and downwards when the net aggregated transactions result in a decrease in the number of units in a given sub-fund. The adjusted Net Asset Value (the "Swung NAV") will be applicable to all transactions for the specific sub-fund on that specific Valuation Day.

The Swing Factor is at maximum 3% of the net subscription position or the net redemption position, as the case may be.

C WORLDWIDE

4 TAXATION

The Fund is registered under the Luxembourg law as a mutual investment fund ("Fonds Commun de Placement"). Accordingly, no Luxembourg income or capital gains tax is, at present, payable. It is subject, however, to an annual subscription tax ("taxe d'abonnement") calculated as a percentage of the net asset value of the Fund at the end of each quarter, excluding investments in other Luxembourg funds already subject to that tax. This tax is payable quarterly. Presently, the annual rate payable is 0.05% p.a. of the net asset value of the classes, except for the classes only available to institutional investors which have a reduced rate to 0.01% p.a. of the net assets attributable to such classes.

5 MANAGEMENT FEES

The Management Company is entitled to be paid a fee based on the net assets of each active Sub-Fund as determined on each valuation date. The fee is accrued daily and payable monthly. The management fee rate applicable to each active Sub-Fund, in % of the total net assets per year, is as follows:

Sub-Fund	Unit Class	Management Fee for the year 1 January 2024 to 31 December 2024
C WorldWide Emerging Markets	1A	1.80%
C WorldWide Emerging Markets	1C	1.80%

*Please refer to the Unit Class opening note.

A portion of the Management Fees is used to remunerate the Investment Manager, the distributor and the transfer agent.

Due to their size, a portion of the audit, legal and other expenses for the following Sub-Funds: C WorldWide Emerging Markets, C WorldWide Stable Equities, C WorldWide India, C WorldWide Centuria Global Equities and C WorldWide Nordic are partially borne by the Management Company.

The board establishes a maximum limit for the Total Expense Ratio (TER) and any expenses exceeding this limit are covered by the Management Company.

C WORLDWIDE

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

6 DEPOSITARY FEES

The depositary will receive a depositary fee accrued daily, on the net assets of the Sub-Fund and payable monthly in arrears, not exceeding 0.05% of the net assets of the Sub-Fund.

In addition, the Depositary is entitled to be reimbursed out of the net assets of the Sub-Fund for any fees charged to it in relation to sub-custodian services regarding the Sub-Fund and for its reasonable out-of-pocket expenses.

Depositary fees are borne by each sub-fund instead of the Management Company.

7 TRANSACTION COSTS

Transaction costs incurred by the Fund are relating to purchase or sale of securities and are included in the transaction price to calculate the realized and unrealized gain/(loss) on securities. For the year ended 31 December 2024, the Fund incurred transaction costs which have been defined as the commission paid by the Fund to the intermediary relating to purchases or sales of transferable securities, money market instruments, derivatives or other eligible assets as follows:

Sub-Fund	Currency	Transaction costs in Sub-Fund currency
C WorldWide Emerging Markets	USD	78,503.23
C WorldWide Stable Equities	USD	32,355.22
C WorldWide Healthcare Select	EUR	546,503.86
C WorldWide Nordic	USD	78,662.02
C WorldWide Sweden	SEK	299,667.10
C WorldWide Sweden Small Cap	SEK	1,337,069.05
C WorldWide Global Equities	USD	1,314,531.59
C WorldWide Asia	USD	668,957.94
C WorldWide Global Equities Ethical	EUR	879,464.86
C WorldWide India	USD	83,999.49
C WorldWide Centuria Global Equities	USD	38,284.72

8 PLEDGES

The assets of the Fund are pledged in favour of the Depositary to guarantee the liabilities of the Fund.

9 DIVIDEND PAID

During the financial year ending 31 December 2024, the Board of Directors decided to pay dividends as follows:

Sub-Fund	Sub-Fund currency	Unit Class	Dividend per Unit	Ex date	Pay date
C WorldWide Nordic	USD	5B	6.57	06-May-2024	08-May-2024
C WorldWide Sweden	SEK	5B	6.18	06-May-2024	08-May-2024
C WorldWide Sweden Small Cap	SEK	5B	23.29	06-May-2024	08-May-2024

UNIT CLASS OPENING

During the year, the following Unit Class was opened:

Sub-Fund's name	Unit Class	Currency	Opening date
C WorldWide Stable Equities	5B	USD	09-December-2024

OTHER INFORMATION TO UNITHOLDERS (UNAUDITED)

1 REMUNERATION POLICY OF THE MANAGEMENT COMPANY

The Board of Directors of the Management Company is responsible for the design and implementation of the Remuneration Policy and reviewed it on a regular basis as part of its supervisory function. In reviewing the Remuneration Policy, the Board of Directors of the Management Company considered whether the remuneration framework operated as intended and that the risk profile, long-term objectives and goals of the Fund were adequately reflected.

A copy of the Remuneration Policy is available, free of charge, at the registered office of the Management Company.

The total amount of remuneration for the financial year split into fixed and variable remuneration, paid by the Management Company to its staff and in relation to the activity of the Fund is as follows:

Gross fixed remuneration: EUR 679,282.61
Gross variable remuneration: EUR 58,376.16
Number of beneficiaries: 5.0

The aggregate amount of remuneration broken down by senior management and members of staff of the Management Company whose actions have a material impact on the risk profile of the Fund and in relation to the activity of the Fund is as follows:

Gross senior management remuneration: EUR 519,148.61
Number of beneficiaries: 3
Gross staff remuneration: EUR 160,134.00
Number of beneficiaries: 2.0

During the year ended, no carried interest has been paid by the Fund and there were no material changes to the adopted remuneration policy.

2 GLOBAL RISK EXPOSURE CALCULATION METHOD

All the Sub-Funds use the commitment approach to monitor and measure the global risk exposure.

3 ADDITIONAL INFORMATION REGARDING THE TRANSPARENCY OF SECURITIES FINANCING TRANSACTIONS AND OF REUSE

The Fund is subject to the Regulation (EU) 2015/2365 on Transparency of Securities Financing Transactions and of Reuse and Amending Regulation (EU) No 648/2012 of the European Parliament ("SFTR").

A Securities Financing Transaction ("SFT") is defined per Article 3(11) of the SFTR as:

- a repurchase transaction or a reverse repurchase transaction;
- a securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

As at 31 December 2024, the Fund does not hold any of the above SFTs. Furthermore, no corresponding transactions were carried out during the year referring to the financial statements. Consequently, there's no information to disclose on Transparency of Securities Financing Transactions and of Reuse.

4 SFDR PERIODIC DISCLOSURE

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are covered under SFDR periodic disclosure (unaudited) of the Annual Report.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: C WORLDWIDE EMERGING MARKETS
Legal entity identifier: 549300YM4QHB6UUOM871

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective:** ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0 %	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0 %	0	0	0

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5 %	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5 %	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti- corruption and anti- bribery matters.

● ...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

What was the asset allocation?

	2024
#1 Aligned with E/S characteristics	97.83%
#2 Other	2.17%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Pollution Prevention & Control	-	-	0 %
Water & Marine Resources	0 %	-	0 %
Circular Economy	0 %	-	0 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

What was the share of investments made in transitional and enabling activities?

The portfolio is 0.04% aligned with the EU Taxonomy through enabling activities only.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons

0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024
Amount of new PAI analysis made	17
Amount of updated PAI analysis	31

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE STABLE EQUITIES

Legal entity identifier: 549300D7S2TIBOEWS41

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☒ ☐ No

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms (**Sector exclusions**). This has been screened for on a monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0	0

...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

Asset allocation
describes the share
of investments in
specific assets.

● *What was the asset allocation?*

	2024
#1 Aligned with E/S characteristics	96.8%
#2 Other	3.2%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.01% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Product name: C WORLDWIDE HEALTHCARE SELECT

Legal entity identifier: 549300R80F3CJB8CE623

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a

monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion

Shale Energy	Companies involved in shale energy exploration or production.	0%	0	0	0

...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS				
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	455.39 tonne CO2e	484 tonne CO2e

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

	2024
#1 Aligned with E/S characteristics	98.09%
#2 Other	1.91%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

● *In which economic sectors were the investments made?*

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Sector	Weight
Health Care Equipment	30.06 %
Biotechnology	29.41 %
Pharmaceuticals	21.47 %

Water & Marine Resources	0 %	-	0 %
Circular Economy	0 %	-	0 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

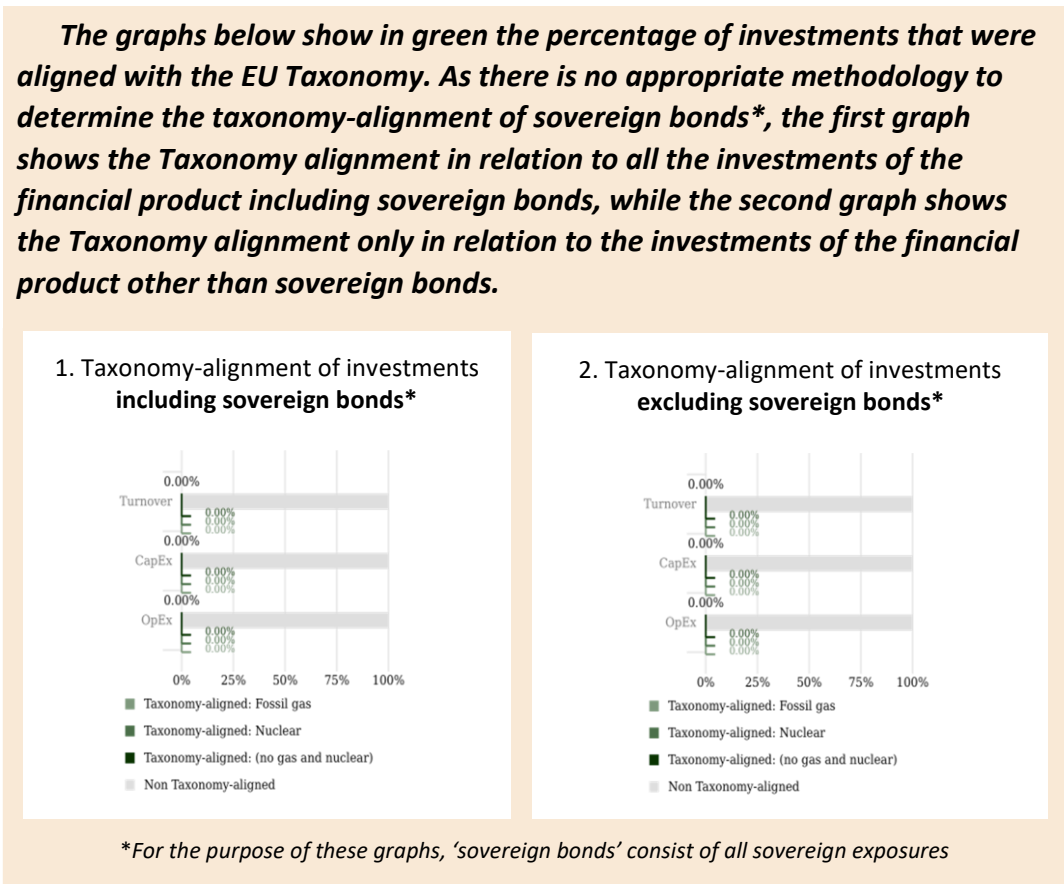

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

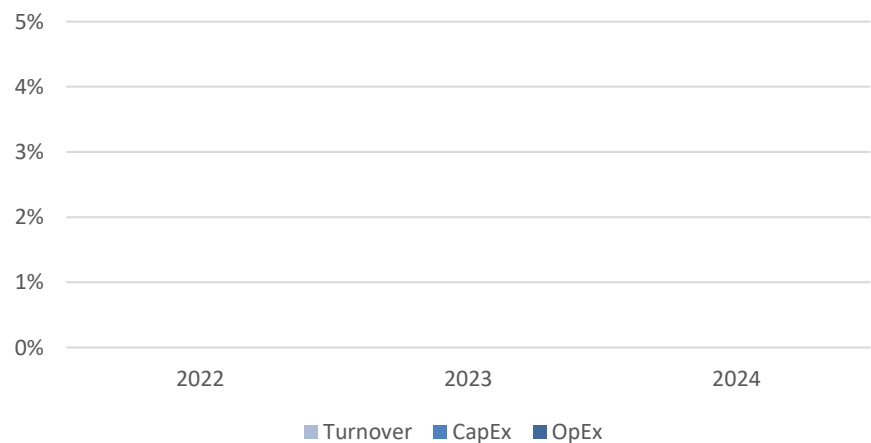

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The product does not have any alignment with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024
Amount of new PAI analysis made	4
Amount of updated PAI analysis	32

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: C WORLDWIDE NORDIC

Legal entity identifier: 549300GQ1PLZ3BKZXQ28549300GQ1PLZ3BKZXQ28

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☒ ☐ No

☐ It made **sustainable investments with an environmental objective:** ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a

monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0 %	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0 %	0	0	0

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale or retail sale of assault weapons.	5 %	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5 %	0	0	0
Adult Entertainment	Companies involved in the production or distribution of adult entertainment or owning or operating adult entertainment establishments.	5 %	0	0	0
Alcoholic Beverages	Companies involved in the manufacturing, distribution or retail sale of alcoholic beverages or in supplying alcohol-related products or services to alcoholic beverage manufacturers.	5 %	0	0	0
Gambling	Companies owning or operating gambling establishments, manufacturing specialized equipment used exclusively for gambling or providing supporting products or services to gambling operations.	5 %	0	0	0
Tobacco Products	Companies involved in the manufacturing, distribution or retail sale of tobacco products or in the supply of tobacco-related products or services.	5 %	0	0	0
Oil & Gas	Companies involved in oil and gas exploration, production, refining, transportation, or storage.	5 %	0	0	0
	Companies involved in the generation of electricity from oil or gas.	25 %	0	0	0
Thermal Coal	Companies involved in the generation of electricity from thermal coal.	5 %	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

	Companies involved in thermal coal extraction.	5 %	0	0	0
Oil Sands	Companies involved in oil sands extraction.				
Shale Energy	Companies involved in shale energy exploration or production.	5 %	0	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	Weight
Industrial Machinery & Supplies & Components	21.69 %
Pharmaceuticals	10.04 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

In fossil gas

In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

0.61% of the portfolio is aligned with the EU Taxonomy through transitional activities and 2.69% is aligned through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: C WORLDWIDE SWEDEN
Legal entity identifier: 549300660AULYSU79L71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <div> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____% </div>	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 63.75% of sustainable investments <div> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments </div>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics through a minimum proportion of sustainable investments (**Minimum proportion of sustainable investments**).

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● *How did the sustainability indicators perform?*

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Minimum proportion of sustainable investments: The Sub-Fund was committed to have a minimum proportion of 5% of sustainable investments. The actual average proportion of sustainable investments was 63.75%.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon.	0%	0	0	0

Oil Sands	Companies involved in oil sands extraction.				
Shale Energy	Companies involved in shale energy exploration or production.	5%	0	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are principal adverse impacts, minimum proportion of sustainable investments, sector exclusions and controversial weapons exclusion.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Sub-Fund invested in investee companies within any sector only limited by the sector exclusions. The objectives of the sustainable investments that the Sub-Fund partially intended to make were therefore not focused on a single objective but consisted of the following:

- Reduction of greenhouse gas emissions and pollution and positive contribution to diversity measured through relative performance of investee companies based on selected Quantitative PAI Indicators compared to a general investment universe.
- Reduction of greenhouse gas emissions measured by investee companies having science based targets to reduce greenhouse gas emissions which has been reviewed and validated by the Science Based Targets Initiative.
- Contribution to the environmental objectives set out in article 9 of Regulation 2020/852 measured by any alignment with the EU Taxonomy by investee companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

In order to ensure that the sustainable investments that the Sub-Fund partially intended to make, did not cause significant harm to any environmental or social sustainable investment objective, a do no significant evaluation was performed on

each investee company. To pass the do no significant harm evaluation an investee company had to have:

- No negative products, services or operational exposure PAI's measured by the Exposure PAI Indicators
- No negative product controversy product PAI's measured by the Controversy products PAI Indicators
- No quantitative PAI's in the bottom 5 percentile measured by the Quantitative PAI Indicators
- No controversy related to breaches of the minimum safeguards.

Minimum safeguards

The minimum safeguards included high severity controversies, including controversies in relation to labor rights and human rights.

How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors were taken into account in the measurement of an investee company's contribution to a environmental or social sustainable investment objective and the do no significant harm evaluation as described above.

The mandatory PAI indicators as defined in table 1 of annex 1 of Regulation (EU) 2022/1288 are divided into:

- Exposure PAI Indicators: PAI indicator no. 4 and 14
- Controversy PAI Indicators: PAI indicator no. 7, 10 and 11
- Quantitative PAI Indicators: PAI indicator no. 1-3, 5, 6, 8, 9, 12 and 13

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

PAI indicator no. 10 was used to measure violations of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. In addition, alignment with the UN Guiding

Principles and the OECD Guidelines for Multinational Enterprises were included in the minimum safeguard evaluation.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS				
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	289.87 tonne CO2e	340.23 tonne CO2e

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	2024
#1 Aligned with E/S characteristics	97.64%
#1A Sustainable	63.75%
#1B Other E/S characteristics	33.89
#2 Other	2.36%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

● ***In which economic sectors were the investments made?***

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

1. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

0.02% of the portfolio is aligned with the EU Taxonomy through transitional activities and 0.39% is aligned through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 95%.

The reason why the Sub-Fund invested in sustainable investments not aligned with the EU Taxonomy was due to the low availability of company data and the fact that not all companies are subject to the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 45.13%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainability is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cworldwide.com/downloads/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE SWEDEN SMALL CAP
 Legal entity identifier: 549300G1P850YAT1OZ08

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <div> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____% </div>	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 69.47% of sustainable investments <div> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments </div>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics through a minimum proportion of sustainable investments (**Minimum proportion of sustainable investments**).

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● *How did the sustainability indicators perform?*

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Minimum proportion of sustainable investments: The Sub-Fund was committed to have a minimum proportion of 5% of sustainable investments. The actual average proportion of sustainable investments was 69.47%.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon.	0%	0	0	0

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale or retail sale of assault weapons.	5%	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0	0

Adult Entertainment	Companies involved in the production or distribution of adult entertainment or owning or operating adult entertainment establishments.	5%	0	0	0
Alcoholic Beverages	Companies involved in the manufacturing, distribution or retail sale of alcoholic beverages or in supplying alcohol-related products or services to alcoholic beverage manufacturers.	5%	0	0	0
Gambling	Companies owning or operating gambling establishments, manufacturing specialized equipment used exclusively for gambling or providing supporting products or services to gambling operations.	5%	0	0	0
Tobacco Products	Companies involved in the manufacturing, distribution or retail sale of tobacco products or in the supply of tobacco-related products or services.	5%	0	0	0
Oil & Gas	Companies involved in oil and gas exploration, production, refining, transportation, or storage.	5%	0	0	0
	Companies involved in the generation of electricity from oil or gas.	25%	0	0	0
Thermal Coal	Companies involved in the generation of electricity from thermal coal.	5%	0	0	0

	Companies involved in thermal coal extraction.	5%	0	0	0
Oil Sands	Companies involved in oil sands extraction.				
Shale Energy	Companies involved in shale energy exploration or production.	5%	0	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are principal adverse impacts, minimum proportion of sustainable investments, sector exclusions and controversial weapons exclusion.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Sub-Fund invested in investee companies within any sector only limited by the sector exclusions. The objectives of the sustainable investments that the Sub-Fund partially intended to make were therefore not focused on a single objective but consisted of the following:

- Reduction of greenhouse gas emissions and pollution and positive contribution to diversity measured through relative performance of investee companies based on selected Quantitative PAI Indicators compared to a general investment universe.
- Reduction of greenhouse gas emissions measured by investee companies having science based targets to reduce greenhouse gas emissions which has been reviewed and validated by the Science Based Targets Initiative.
- Contribution to the environmental objectives set out in article 9 of Regulation 2020/852 measured by any alignment with the EU Taxonomy by investee companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

In order to ensure that the sustainable investments that the Sub-Fund partially intended to make, did not cause significant harm to any environmental or social sustainable investment objective, a do no significant evaluation was performed on each investee company. To pass the do no significant harm evaluation an investee company had to have:

- No negative products, services or operational exposure PAI's measured by the Exposure PAI Indicators
- No negative product controversy product PAI's measured by the Controversy products PAI Indicators
- No quantitative PAI's in the bottom 5 percentile measured by the Quantitative PAI Indicators
- No controversy related to breaches of the minimum safeguards.

Minimum safeguards

The minimum safeguards included high severity controversies, including controversies in relation to labor rights and human rights.

How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory indicators for adverse impacts on sustainability factors were taken into account in the measurement of an investee company's contribution to a environmental or social sustainable investment objective and the do no significant harm evaluation as described above.

The mandatory PAI indicators as defined in table 1 of annex 1 of Regulation (EU) 2022/1288 are divided into:

- Exposure PAI Indicators: PAI indicator no. 4 and 14
- Controversy PAI Indicators: PAI indicator no. 7, 10 and 11
- Quantitative PAI Indicators: PAI indicator no. 1-3, 5, 6, 8, 9, 12 and 13

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

PAI indicator no. 10 was used to measure violations of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. In addition, alignment with the UN Guiding Principles and the OECD Guidelines for Multinational Enterprises were included in the minimum safeguard evaluation.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS				
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	1069.82 tonne CO2e	944.17 tonne CO2e
		Scope 2 GHG emissions	1488.58 tonne CO2e	1286.29 tonne CO2e
		From 1 January 2024, Scope 3 GHG emissions	375994.8 tonne CO2e	346963.1 tonne CO2e
		Total GHG emissions	378695.1 tonne CO2e	349343.38 tonne CO2e

	2. Carbon footprint	Carbon footprint	562.58 tonne CO2e / EUR M invested	586.02 tonne CO2e / EUR M invested
	3. GHG intensity of investee companies	GHG intensity of investee companies	894.09 tonne CO2e / EUR M revenue	937.89 tonne CO2e / EUR M revenue

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	2024
#1 Aligned with E/S characteristics	96.41%
#1A Sustainable	69.47%
#1B Other E/S characteristics	26.94%
#2 Other	3.59%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	Weight
Industrial Machinery & Supplies & Components	12.16%
Real Estate Operating Companies	9.92%
Building Products	9.10%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

% of aligned investments	Enabling (An economic activity that enables other activities to contribute to an environmental objective)	Transition (Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)	Own Performance (An economic activity that is performed in an environmentally sustainable way)
Climate Change Mitigation	2%	<0.5%	5%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

1. Taxonomy-alignment of investments including sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

0.01% of the portfolio is aligned with the EU Taxonomy through transitional activities and 2.4% is aligned through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 90%.

The reason why the Sub-Fund invested in sustainable investments not aligned with the EU Taxonomy was due to the low availability of company data and the fact that not all companies are subject to the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 47.39%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainability is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cworldwide.com/downloads/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: C WORLDWIDE GLOBAL EQUITIES

Legal entity identifier: 549300XYXLOGKJU5D716

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective:** ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☒ ☐ No

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0 %	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0 %	0	0	0

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5 %	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5 %	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2024
#1 Aligned with E/S characteristics	99.56%
#2 Other	0.44%

The investments of the Sub-Fund mainly consist of equities. All equities were used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

● ***In which economic sectors were the investments made?***

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Sector	Weight
Transaction & Payment Processing Services	7.81 %
Diversified Banks	7.80 %

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

% of aligned investments	Enabling (An economic activity that enables other activities to contribute to an environmental objective)	Transition (Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)	Own Performance (An economic activity that is performed in an environmentally sustainable way)
Climate Change Mitigation	<1 %	0%	<1 %
Climate Change Adaptation	0 %	-	0 %
Biodiversity & Ecosystem	-	-	0 %
Pollution Prevention & Control	-	-	0 %
Water & Marine Resources	0 %	-	0 %
Circular Economy	0 %	-	0 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

What was the share of investments made in transitional and enabling activities?

The portfolio is 0.57% aligned with the EU Taxonomy through enabling activities only.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024
Amount of new PAI analysis made	1
Amount of updated PAI analysis	29

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: C WORLDWIDE ASIA

Legal entity identifier: 549300XFAYM69X2X2U22

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators

measure how the sustainable objectives of this financial product are attained.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0 %	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon.	0 %	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5 %	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5 %	0	0	0

...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

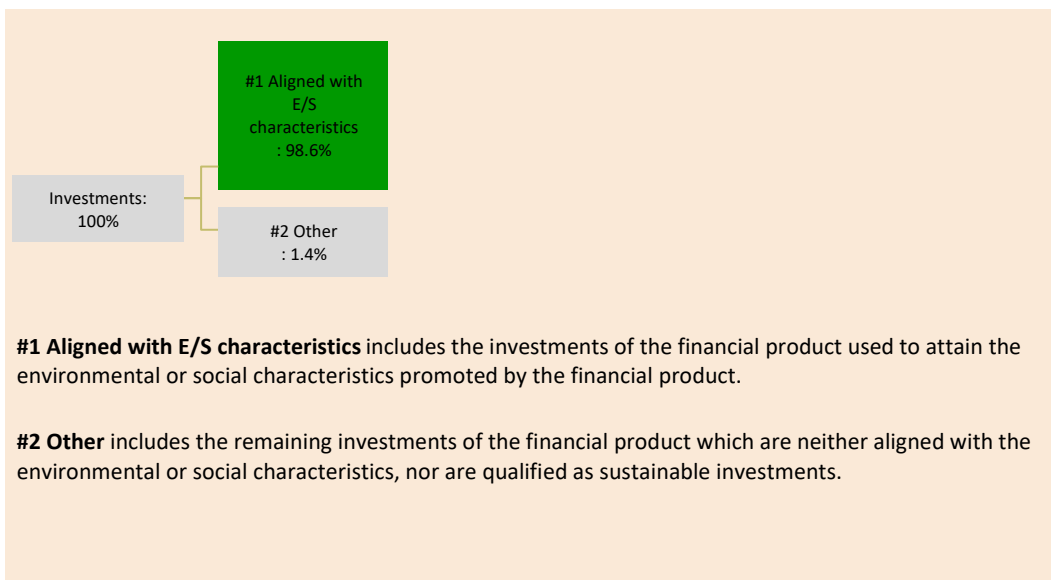

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2024
#1 Aligned with E/S characteristics	98.6%
#2 Other	1.4%

The investments of the Sub-Fund mainly consist of equities. All equities were used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 1.55% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE GLOBAL EQUITIES ETHICAL

Legal entity identifier: 549300MO0ZN96EI7SE52

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☒ ☐ No

☐ It made **sustainable investments with an environmental objective**: ____%

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☐ It made **sustainable investments with a social objective**: ____%

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0 %	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon.	0 %	0	0	0

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5 %	0	0	0
	Company providing tailor-made products or services that support military weapons.	5 %	0	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale or retail sale of assault weapons.	0 %	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	0 %	0	0	0
Adult Entertainment	Companies involved in the production or distribution of adult entertainment or owning or operating adult entertainment establishments.	5 %	0	0	0
Alcoholic Beverages	Companies involved in the manufacturing, distribution or retail sale of alcoholic beverages or in supplying alcohol-related products or services to alcoholic beverage manufacturers.	5 %	0	0	0
Gambling	Companies owning or operating gambling establishments, manufacturing specialized equipment used exclusively for gambling or providing supporting products or services to gambling operations.	5 %	0	0	0
Tobacco Products	Companies involved in the manufacturing, distribution or retail sale of tobacco products or in the supply of tobacco-related products or services.	5 %	0	0	0
Oil & Gas	Companies involved in oil and gas	5 %	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

	exploration, production, refining, transportation, or storage.				
	Companies involved in the generation of electricity from oil or gas.	10 %	0	0	0
Thermal Coal	Companies involved in thermal coal extraction.	0 %	0	0	0
	Companies involved in the generation of electricity from thermal coal.	5 %	0	0	0
Oil Sands	Companies involved in oil sands extraction.	0 %	0	0	0
Shale Energy	Companies involved in shale energy exploration or production.	0 %	0	0	0

...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied. In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company. The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2024	Impact 2023
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS				
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	12682.71 tonne CO2e	10569.29 tonne CO2e

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures*

Where data is unavailable directly from the companies, estimated data is used from a third-party provider.

Compliance of the investments in environmentally sustainable economic activities with the requirements laid down in Article 3 of Regulation (EU) 2020/852 is not subject to an assurance provided by one or more auditors or a review by a third party.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.65% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: C WORLDWIDE INDIA
Legal entity identifier: 5493000M8QEYBQDR5T18

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective:** ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Controversial weapons exclusion					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0	0

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sector exclusions					
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2024	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0	0

...and compared to previous periods?

The characteristics that are comparable to a previous period are principal adverse impacts, sector exclusions and, controversial weapons exclusion.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

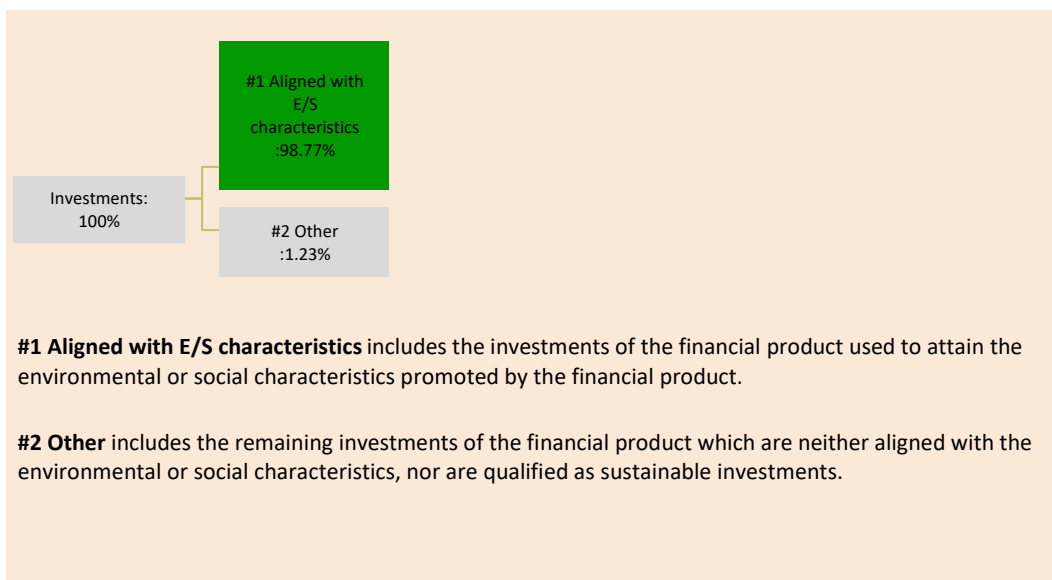

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

	2024
#1 Aligned with E/S characteristics	98.77%
#2 Other	1.23%

The investments of the Sub-Fund mainly consist of equities. All equities were used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	Weight
Diversified Banks	20.88 %
IT Consulting & Other Services	10.61 %
Real Estate Development	4.46 %
Oil & Gas Refining & Marketing	4.33 %

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

% of aligned investments	Enabling (An economic activity that enables other activities to contribute to an environmental objective)	Transition (Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)	Own Performance (An economic activity that is performed in an environmentally sustainable way)
Climate Change Mitigation	<0.5 %	<0.5 %	0 %
Climate Change Adaptation	0 %	-	0 %
Biodiversity & Ecosystem	-	-	0 %
Pollution Prevention & Control	-	-	0 %
Water & Marine Resources	0 %	-	0%
Circular Economy	0 %	-	0 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

What was the share of investments made in transitional and enabling activities?

The portfolio is 0.03% of the portfolio is aligned with the EU Taxonomy through transitional activities and 0.07% is aligned through enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024
Amount of new PAI analysis made	6
Amount of updated PAI analysis	46

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE CENTURIA GLOBAL EQUITIES

Legal entity identifier: 549300Z2JV5OS16IOP69

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective**: ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: ____%

☒ ☐ No

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons exclusion**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in small arms, adult entertainment, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

There was no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund (**Reference benchmark**).

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

Controversial weapons exclusion: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

The top investments of the Sub-Fund are calculated based on the average of the quarterly values of the Sub-Fund.

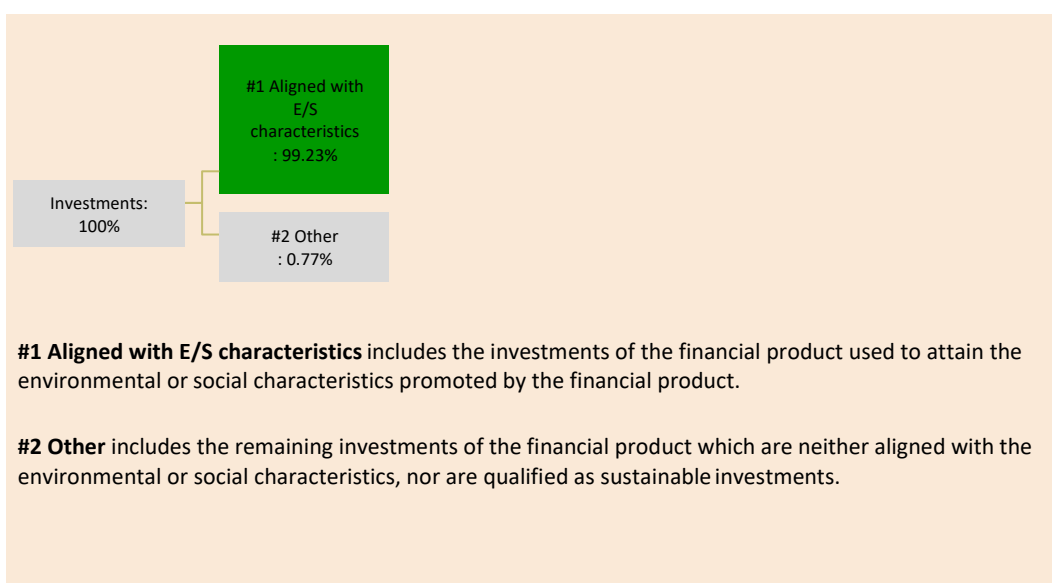

What was the proportion of sustainability-related investments?

The Sub-Fund has not committed to making sustainable investments and therefore leave out disclosure of the proportion of sustainable investments during the reference period.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2024
#1 Aligned with E/S characteristics	99.23%
#2 Other	0.77%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Sector	Weight
Application Software	13.62 %
Building Products	10.48 %
Health Care Supplies	7.82 %
Health Care Equipment	6.86 %
Research & Consulting Services	6.64 %
Diversified Banks	6.30 %
Specialized Consumer Services	5.20 %
Semiconductor Materials & Equipment	4.15 %
Broadline Retail	4.08 %
Packaged Foods & Meats	3.95 %
Life Sciences Tools & Services	3.94 %
Trading Companies & Distributors	3.49 %
Specialty Chemicals	3.43 %
Financial Exchanges & Data	3.38 %

Distillers & Vintners	1.55 %
Electronic Equipment & Instruments	1.48 %
Environmental & Facilities Services	1.41 %
Paper & Plastic Packaging Products & Materials	0.67 %
Electronic Components	0.05 %

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	0 %	0 %	2 %
Climate Change Adaptation	0 %	-	0 %
Biodiversity & Ecosystem	-	-	0 %
Pollution Prevention & Control	-	-	0 %
Water & Marine Resources	0 %	-	0 %
Circular Economy	0 %	-	0 %

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐

Yes:

☐

In fossil gas

☐

In nuclear energy

☒

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The product does not have any investments in transitional or enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons		
2024	2023	2022
0	0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Management Company.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2024
Amount of new PAI analysis made	4
Amount of updated PAI analysis	26

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.
